

Description

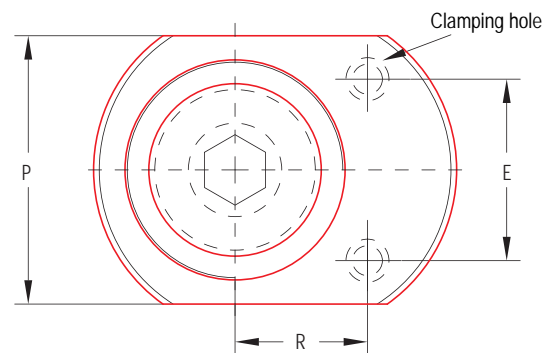

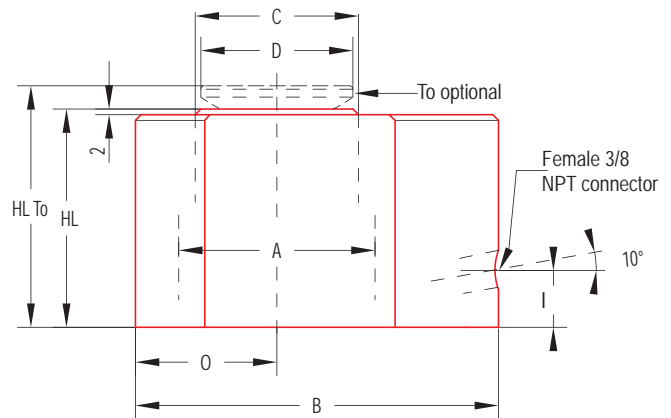

These compact, lightweight and easy-to-handle cylinders can be used in the most restricted areas. Ideal for lifting heavy items with difficult access.

Specifications

- Thrust 5 to 220 tonnes
- Stroke 15 mm
- Piston load return
- Smooth piston
- Anti-seizing, corrosion-proof treatment
- Guide and stop ring
- Screw-on female 1/2 coupler 3050.3 with protective cap

On request

- Piston return using built-in spring
- Tilting piston head
- Clamping holes
